

Where Business Meets Energy Policy

More than 50 businesses, trade associations, non-profits, and research institutions form NASEO's Affiliates network. Affiliates provide crucial support to NASEO's mission to serve as a resource for and about the 56 State and Territory Energy Officials. Through this program, NASEO helps companies understand the unique priorities and perspectives of state energy policy makers and shares private sector expertise to help State Energy Offices understand the critical need for public-private partnerships to address challenges in the sector. To learn more, visit www.naseo.org/members-affiliates or contact Sandy Fazeli, Managing Director at sfazeli@naseo.org or 703-299-8800 x 117. Visit <https://www.naseo.org/affiliates/application> to apply for membership. Thank you for considering supporting NASEO!

WHY JOIN?

VOICE YOUR PERSPECTIVES AND SHARE EXPERTISE

Affiliates help State Energy Offices align their policy and program efforts with private sector innovations, knowledge, and investments. Opportunities to share your unique insights and important energy expertise, and increase visibility for your organization, include:

- ❖ Conferences and Meetings: Affiliates receive one complimentary pass to either of NASEO's two major annual conferences, the Energy Policy Outlook Conference (held every February in Washington, D.C.) or the NASEO Annual Meeting (held every September in varying locations). As a member your company also has early opportunities to submit input and ideas for conference sessions and discuss potential speaking opportunities with NASEO staff.
- ❖ Topical Committees: NASEO engages state energy directors and their staff on a wide variety of issues, including energy security, grid modernization, energy-efficient buildings, transportation, and financing. Affiliates with expertise on these issues are often featured in committee discussions.
- ❖ NASEO Projects and Publications: NASEO frequently partners with Affiliates on special projects, joint publications, and informational campaigns. This allows NASEO staff to tap into Affiliates' knowledge of private sector projects and successes to make the information we share with State Energy Offices robust and compelling.

LEARN UNIQUE INSIGHTS ON ENERGY POLICY

Affiliates benefit from priority access to NASEO resources, including:

- ❖ Breaking news updates, analyses, and discussions on Congressional and Administration actions on energy, including energy bills, budgets and appropriations, and policy hearings;
- ❖ Monthly newsletter detailing project, program, and policy updates from NASEO, the State Energy Offices, and Affiliates;
- ❖ Special invitations to participate in NASEO Board and committee meetings, webinars, project update calls, and other special initiatives;
- ❖ Exclusive opportunities to attend NASEO's regional meeting series (held every spring), to learn about priorities and opportunities for collaboration among State Energy Offices at the regional level;
- ❖ In-person and phone briefings with NASEO's expert staff to learn more about the State Energy Offices and their activities.

GAIN UNPARALLELED ACCESS

NASEO is the country's only national non-profit association for the governor-designated energy officials from each of the 56 states and territories. For this reason, NASEO Affiliates benefit from direct access to state energy policy decision makers through NASEO's staff, dynamic networking and informational meetings, and topical committee discussions.
